

FIFTY-NINE YEARS AGO in the May 21, 1909 issue of the *University Missourian*, Columbians read that a fast driving student was charged \$40 and Columbia grocers didn't fare too well in the State Food Commissioner's inspection and the Tigers trounced the Jayhawkers 11 to 2 in a baseball game.

COLUMBIA GROCERS ALMOST "FLUNKED"

Poor Grades Made in Test Given by State Food Commissioner.

LACK OF CLEANLINESS

But Owners of Stores Say Conditions Will Be Improved at Once.

Some of the grocery stores of Columbia almost flunked in the inspection made by the state food and drug commissioner recently. In the matter of cleanliness the stores made less than half of a perfect standard. From other standpoints the stores average a little more than half of a perfect grade. One store shows a good mark—but only one.

F. L. Austin, secretary to the state food and drug commissioner, and A. H. Douglass, deputy commissioner and analyst in this district, completed a grading inspection yesterday of the grocery stores of Columbia. They graded on a basis of 100, allowing ten for a perfect score in each of ten points. Their cards show this average score of the stores on those ten points:

Ventilation and light, 6.4 points; floors, walls, fixtures (from the standpoint of sanitation), 4.5 points. Although two stores were given a grade of zero; refrigerator, 6.3 points; butter and cheese, 6.5 points; bulk goods, vegetables, 5.8 points; display of goods in store, 6 points; sidewalk display, 6 points, with a low score of 4 points, and a high one of 9 points; cellar and stock, 8 points, with a low score of 3 points; back room and yard, 6 points; personnel, 6 points.

Grading each store on a whole, with 100 as the perfect mark, and taking an average of all the stores, the resulting grade is 60.7. The highest average of one store was 83, while one graded as low as 44. Cleanliness, or lack of cleanliness, of floors, walls, fixtures, is shown by the cards to be the weak point of the grocery stores.

"The grocers expressed a willingness to co-operate with us in bettering the conditions of their stores," said Mr. Austin today. "They were willing for us to survey the stores and the goods, and tell us all we would ask. They said that the inspection caught them at a bad time, following the circus day the first of the week."

ALUMNI LUNCHEON, JUNE 2

Dr. Eliot and Governor Hadley Will Be Among the Speakers.

Dr. Charles W. Eliot, former president of Harvard University, and Governor Herbert S. Hadley of Missouri will be among the speakers at the annual alumni luncheon to be held at Rothwell gymnasium immediately after the commencement exercises at the University of Missouri, June 2.

W. F. Woodruff, secretary of the alumni association, has sent notices to this effect to all the alumni of the University, asking that those who desire to attend notify him in advance. Tickets to the luncheon may be procured at the office of the alumni association in Academic hall Monday and Tuesday of commencement week. Seats at the commencement exercises, when Dr. Eliot will deliver an address, will be reserved for those alumni who notify Mr. Woodruff of their intention to attend.

A COURSE IN BOOK-SELLING

Students Are Rehearsing for Summer Campaign in Kansas.

Training classes in book selling have been started at the University of Missouri by students planning to sell a popular book this summer. The prospective book peddlers are divided into squads and rehearsals are held two or three times a week in the room of Lester R. Ford, 509 South Sixth street. The details of book selling are carefully worked out from the moment the agent knocks at the door until he has advanced his strongest argument and "landed" the purchaser. When the course is finished the students will "strike" for Kansas, the Mecca of book sellers.

James Lawrence of the Dupont Powder company will give an informal talk on the "Manufacture of High Explosives" at 7:30 o'clock tonight in Room 7 of the Chemical building under the auspices of the Alpha Chi Sigma, the honorary chemical fraternity. The meeting will be public.

PARTLY CLOUDY IS FORECAST

"Not Much Change in Temperature," Says Weather Bureau.

"Partly cloudy tonight and Saturday," is the weather prediction today. There will not be much change in temperature. The temperatures today follow:

7 a. m.	55	11 a. m.	70
8 a. m.	57	12 (noon)	72
9 a. m.	60	1 p. m.	73
10 a. m.	68	2 p. m.	74

PROGRAM FOR COMMENCEMENT

Exercises Will Begin Friday and Close Wednesday, June 2.

The official program of commencement week at the University of Missouri is as follows:

Friday, May 28, 8 p. m., Tau Beta Pi banquet. 9 p. m., Alpha Zeta banquet, Phi Delta Phi banquet.

Saturday, May 29, 8 p. m., Senior play.

Sunday, May 30, 11 a. m., Baccalaureate sermon, the Rev. Dr. Alexander

THIS is the last issue of the *University Missourian* until commencement week. Papers containing accounts of the commencement exercises will be published May 31, June 1 and June 2.

Lewis, pastor of the First Congregational church, Kansas City.

Monday, May 31, 10 a. m., Class day exercises. 8:30 p. m., Senior ball, Rothwell gymnasium.

Tuesday, June 1, 2 p. m., Business meeting of the Alumni Association. 6:30 p. m., Phi Beta Kappa banquet.

Wednesday, June 2, 10 a. m., Commencement exercises. Conferring of degrees and address (Phi Beta Kappa oration for 1909) by Dr. Charles William Eliot. Exercises of the semicentennial of the class of 1859.

11:30 a. m., Alumni luncheon. 8:30 p. m., Reception by the President and Mrs. Hill to the alumni, the graduating class and the guests of the University, at Rothwell gymnasium.

PROFESSORS IN "SONS OF REST"

"Hoboes" Present Diplomas to Five Faculty Men.

The chief "hoboes" in charge of the "Hobo Convention" at the University of Missouri May 8, have presented Professors L. M. DeFoe, M. S. Wildman, W. G. Bek, J. J. Steffens and J. A. Gibson, with embossed diplomas, which signify that the holders belong to the "Sons of Rest Fraternity."

The certificates were given to the professors after they had been unanimously voted the most deserving of this honor by the student "hoboes" who attended the convention. They were presented with appropriate speech by G. Sam Scott, a junior in the College of Arts and Science.

Diplomas were also presented to P. B. Venable and R. W. Jones in consideration of their assistance in the "hobo" stunt.

SLOPE ADORNED WITH FERNS

Students Find Many on Hinkson Creek This Spring.

Athletes who go to Hinkson creek for a swim, members of fishing parties and others have found many fine ferns this spring on the northern slopes of the Hinkson valley. There are great quantities of maiden hair, and the small species, while in places the Boston fern can be found. The damp weather has caused these plants to grow until they surpass many now found in the florists' shops. The "Jack in the Pulpit" has started to bloom also and from the number of blossoms on the wild blackberry bushes the woods will be abundant with berries this summer.

LIGHTS OUT AT "EXAM" TIME

Tree Limb Breaks a Wire While Students Are "Boning."

While the students living in a boarding house at 907 Lowry street were "boning for exams" last night, a large decayed limb fell from a tree in the yard and broke the electric light wire leading into the house. The house was in darkness for an hour. Finally one of the students spliced the broken wire and study was resumed.

ODD FELLOWS COMING HERE

Columbia to Be Meeting Place for the Lodge Next Year.

The grand lodge of the Independent Order of Odd Fellows will be held in Columbia next year. This was decided at a meeting of the grand lodge in Springfield, Mo., this week.

NEXT YEAR COURSES IN JOURNALISM

Study of Terminology One of the Studies That Will Be Offered.

DEGREE TO BE GIVEN

Advertising, Publishing and Copyreading are Some of the New Courses.

The catalogue of the University of Missouri, which is about ready for distribution, contains announcement of several new professional and academic courses in the School of Journalism for the next year.

A course in professional terminology is a study of the terminology of various professions and activities, their history, problems and principles, through a series of lectures which are intended to cover the different fields that intending journalists may the better understand other professions and such activities as are specially needed for their own work. This course will be given by President Hill in Education, Dean Waters in Agriculture, Prof. Calvert in Medicine, Prof. Flowers in Engineering, Prof. Street in Law, Director Young in Mining Engineering, Librarian Severance in Bibliography, Prof. Pommer in Music, Prof. Hetherington in Athletics, and Prof. Ankeney in Art.

Newspaper Jurisprudence.

Comparative Journalism is a study of journalistic conditions in all countries, comparisons with conditions existing in the United States and the study of American newspapers. History and Principles of Journalism is a course designed to present the main facts of the history of newspaper making, of journalism in various periods and conditions, the meaning and aims of journalism and its fundamental principles.

Newspaper Administration is a study of the conduct of newspapers from the viewpoint of editorial direction and control. This course is opened only to juniors and seniors.

Newspaper Jurisprudence is a study of the laws that relate to newspaper publications, particularly the laws relating to libel.

News Gathering considers the methods of getting news, by individual effort, by press associations, etc., and discusses the real value of news and its presentation.

Newspaper Making is a laboratory course setting forth with assignments journalistic work in all departments. Reporting sets out the values of news, with consideration of the handling of news by all methods.

Copy Reading and Newspaper Correspondence is a study of special feature and special correspondence in newspaper work, the handling of the telegraph, copy reading and headlines.

Advertising and Publishing is a study of newspaper and magazine advertising, preparation of advertising copy, display, etc., including consideration of the business side of journalism.

Magazine Making.

Magazine Making is a technical study of the making of magazines from the viewpoint of the publisher, the editor and the contributor.

Courses are offered also in English, sociology, political science, history, economics, psychology and other subjects in the College of Arts and Science.

The School of Journalism offers one under-graduate degree, that of Bachelor of Science in Journalism. To procure this degree the student must be regularly admitted to the school, he must complete in the first two years of his course five hours of English, five hours of history and ten hours of the other social sciences—economics, sociology, political science; five hours of physical or biological science—astronomy, chemistry, geology and mineralogy, physics, botany, zoology, physiology; five hours of modern languages and five hours of mathematics or logic and psychology. He must complete work in journalism to the amount of twenty-four hours. The greater portion of this work should be taken in the junior and senior years. The total requirement for graduation is 120 hours.

All students who are candidates for a degree are counted regular students of the School of Journalism. In addition to these persons of proper qualifications may be permitted to take work in the school without reference to a degree. Such students are subject to the general rules of the University regarding special students.

The *UNIVERSITY MISSOURIAN* is on sale at the Drug Shop at two cents a copy.

MISSOURIAN.

FRIDAY, MAY 21, 1909.

NUMBER 156

AGAIN THE TIGERS WHIP JAYHAWKERS

Harlan's Curves Batted For Thirteen Hits—Score 11 to 2.

HAYDON PITCHES WELL

Kansans Weak at Bat and Play Town-Lot Ball in Field.

The befuddled Jayhawkers were easy prey for the Tigers in the second game of the Missouri-Kansas series on Rollins field yesterday afternoon. Thirteen hits, coupled with errors by the Kansans, resulted in eleven runs, while the Jayhawkers were able to score but twice. Four of the Tigers' safe drives were for two bases. Harlan, who began the game Wednesday, was again in the box for Kansas, while Haydon did slab duty for the Tigers.

Missouri's two victories over Kansas here puts the latter out of the running for the Missouri Valley championship. At Lawrence the teams broke even in a two-game series.

Kansas Plays Town-Lot Ball.

If possible, Kansas played a worse game in the field than on Wednesday. The infield appeared completely demoralized. If an infielder stopped a ground ball he was pretty sure to toss it over somebody's head. All of which aided materially in the Tigers' run-getting, though the heavy batting of the Missourians would have won the game by a one-sided score even if the visitors had fielded cleanly.

It was a town-lot game, so far as the playing of the Kansans was concerned. After the game the Jayhawkers excused their poor game partly on the ground that they have been used to playing on a "slow" diamond, while that on Rollins field is fast. But that doesn't explain their tendency to throw the ball into the bleachers every now and then.

Haydon had good control and curves, leading the Kansans to three singles and a double. The Jayhawkers tallied in the first on errors and scored again in the seventh on Gibbs' single and an infield error after two were out. With two down in the eighth Heizer drove the ball into the right field bleachers for two bases, but the next batter was an easy out. Haydon pulled himself out of a hole in the ninth after hitting two batters.

Tigers Score in First.

Missouri began the bombardment of Harlan, the Kansans' crack twirler, in the first inning, three hits, a base on balls and the visitors' ragged fielding netting two runs. It was easy sailing after that. Men were on bases in every inning except the second. There was a merry parade around the bases in the fourth, fifth and seventh innings, while the Tigers were driving the ball to all corners of the lot.

Nee and Gundlach got three hits each and Haydon helped to win his own game with two safe drives. Captain Morrow drew three bases on balls and hit for two bases out of four times at bat.

The game was the last of the Tigers' schedule this season. They have won nine games, lost six and tied one. The Kansans departed this morning for St. Louis, where they play Washington University today and tomorrow.

The Score yesterday:

R. H. E.	
Missouri	2 0 0 3 2 0 4 0 x—11 13 2
Kansas	1 0 0 0 0 1 0 0—2 4 9
Batteries	— Missouri, Haydon and Klein; Kansas, Harlan and Rockefeller.

FAST DRIVING COSTS HIM \$40

Judgment Given Against a Student in Justice Court.

Fast driving proved to be expensive for E. C. Brown, a student in the School of Engineering. In the court of J. H. Stockton, justice of the peace, yesterday afternoon, Chandler & Chandler, liverymen, were awarded \$40 damages against the student.

Brown rented a horse and buggy from Chandler & Chandler May 2. The liverymen said the horse was driven too hard and fled suit for \$50. Brown is undecided whether or not he will appeal the case to the circuit court. Brown lives at Clifton Hill, Mo.

Miss Florence Shultz of Sedalia, Mo., a freshman in the College of Arts and Science, has been elected to membership to the "University Players." Miss Shultz is specializing in music in the university.

HE WON HIS GAME AGAINST KANSAS U.

FRED W. HAYDON

CHRISTIAN SCIENCE AND STAGE FRIGHT

Miss Craft Says Her Faith Has Kept Her From Being Frightened.

Miss Marcella Craft, the German court singer who will give a recital in the auditorium of the University of Missouri tonight, believes the fact that she is a Christian Scientist has helped her to escape stage fright. Miss Craft said yesterday that she has suffered nervousness at times, but that her faith has prevented real stage fright.

Students walking through the corridors of Academic hall last night were drawn to the door of the auditorium by Miss Craft's singing, while she was rehearsing with her accompanists, T. Carl Whitmer and V. Mudroch.

Miss Craft, who is a native Californian, has spent the last two years in Europe singing in the provincial towns of Italy and later in Germany. Here she sang for the first time before royalty, some of the Kaiser's family being present at one performance.

Not Frightened Before Royalty.

"I was not frightened," said Miss Craft, "because I had worked up to that point gradually, and I felt fully prepared. Of course there is always some slight nervousness."

Miss Craft said she had never had any stage accidents before important audiences. She is fond of telling some of the amusing incidents that befell her in her provincial tours. She wears a gold pin set with rubies and bearing the German crown, a present from a German prince. These ornaments, she says, are to be worn only by those who have received them personally from a member of the royal family.

To Sing at Munich.

Miss Craft has signed a contract for five years to sing at the Munich Court theater where she will be the principal soprano. She will sing at a concert to be given near Boston this summer, in honor of President Taft. She will return to Germany the latter part of the summer. While in Columbia she is staying at the home of Mrs. J. C. Jones, wife of Dean Jones of the College of Arts and Science.

On account of the recital the band concert for tonight has been called off. B. H. Ozment, director, said this morning that if the members of the orchestra did not have too much studying to do the concert would be given Saturday night.

Druids Elect Members.

The Druids, the honor society of the sophomore class of the University of Missouri, have elected the following from this year's freshman class: J. M. Doyle, J. K. Pixlee, James Klein, Marshall Neil, T. D. Hackney, W. J. Flannigan.

20-YEAR FRANCHISE TO ELECTRIC LINE

Council Grants Right to Mexico, Santa Fe and Perry to Enter City.

PASSENGER FARE 5 CENTS

Road Must Begin Operation of Cars in Two Years—Other Provisions.

The city council of Columbia granted a twenty-year franchise last night to the Mexico, Santa Fe and Perry Traction company of Missouri for an electric line in the city. The franchise provides that the work of construction must begin within eighteen months and that the company must be operating cars over the road inside of two years.

The city reserves the right to regulate the corporation. Other roads will be given permission to enter Columbia over the tracks laid by this company. A five-cent passenger fare is provided.

Must Keep up Paving.

The company must keep up the street paving between the tracks and for eighteen inches on either side. Any damages sustained by the property owners along the railroad must be borne by the company. The company releases the city from any damages resulting to the road from a change in the grade in the street to which the road must at all times conform.

The company must deposit a bond of \$5,000 to guarantee the placing of the streets in good condition after the track is laid. The rails must not project above the surface of the street. The company is compelled to operate a car every three hours in the day time.

Route of the Road.

The route of the road, as mapped in the franchise is: It enters the city at the corporation line near More's station and runs west on More's boulevard to Range Line street, west on North boulevard to Seventh street, south to Wilkes boulevard, west to Washington avenue, south on Washington and Fifth streets to Broadway, east to Seventh street, south to Cherry street, east to Tenth street, north to Broadway and west to Fifth street.

The ordinance provides for the operation of trains for freight passengers, baggage and express. No freight cars, however, shall be operated on Broadway, Cherry and Tenth streets.

The ordinance becomes void if the company does not accept each of its provisions in writing within sixty days.

"M'S" FOR THIRTEEN MEN

Meeting Soon to Elect a Captain for Next Year.

Thirteen members of this year's baseball team have been awarded the "Varsity 'M.'" Of this number six received their letter for the first time and three for the third time. The men who were honored are: Gundlach, Nee, Morrow, Blakely, Haydon, Basher, Wise, Klein, Graves, Stone, Lhamon, Alexander and Capp.

Guy S. Lowman, the coach, will call a meeting of these men soon to elect a captain for next year's team. All, with the exception of Gundlach, Nee, Morrow, Lhamon, Capp, Wise and Graves, are eligible for the office. Gundlach, Nee, Morrow and Graves have played the three years allowed in the Missouri Valley Conference rules and Wise and Capp are seniors. Lhamon will be an interne in the hospital next year and is therefore ineligible.

And 13 Track Men Get "M's."

Thirteen men have been awarded their track "M" for winning firsts on the cinder path this year. The men are: Douglass, Crain, Shuck, Steele, Bowling, Tipton, Miller, A. W. Roberts, Herzog, O. G. Johnson, Cleland, Wood and Talbot. Of these men Tipton, Shuck, Miller, Wood, Talbot, Herzog and Steele received their letter for the first time.

Reception for Senior Lawyers.

The annual reception given by the faculty of the School of Law of the University of Missouri, to the senior class of the School of Law, was given at the Columbia club last night. Talks were made by Judge Lewis M. Switzler, Patterson McBaine, North Todd Gentry and members of the faculty.

Art Lovers Guild to Meet.

The annual meeting of members of the Art Lovers Guild will be held at Read hall at 7:30 o'clock tomorrow night.
